

YOUR NAME

PRODUCT BUILDER / CREATIVE DEVELOPER

INTRO / I build playful, useful digital products - from marketplaces and AI tools to strange game mechanics. I like turning ambitious ideas into clear experiences.

SELECTED QUESTS

01 MARKETPLACE

gas.green

Built a marketplace that makes lower-carbon fuel choices easier to discover and act on. I worked across product thinking, flows and interface details.

PRODUCT / UX / FRONT END

02 UE5 GAME

Mind over mollusc

A game about mind-controlling a sea slug. Built in Unreal Engine 5, with the central mechanic, atmosphere and underwater world developed together.

UE5 / GAMEPLAY / PROTOTYPING

03 B2B STARTUP

AI agents

Worked on agentic tools for business teams, turning messy workflows into clear, testable product experiences across AI behavior and interface.

AI / PRODUCT / SYSTEMS

04 SELECTED WORK

Front ends + NDA

Shipped focused front-end work and contributed to projects I cannot name yet. I can discuss my role, decisions and lessons at the right level.
