DENIS

MATEJCIK

I build things that feel alive - marketplaces, games, AI agents. Small team energy, fast pace, and focus. Always open to the next quest.

LVL 1

GAS. GREEN

MARKETPLACE

A digital marketplace for every business.
Editable listings, customizations, seller onboarding, checkout flow.
My longest-running project.

LVL 2

SEA SLUG GAME

UE 5

A game about mind-controlling a sea slug, made in UE5 2h of gameplay, environmental puzzles, underwater atmosphere. Proof I'll chase a weird idea all the way to something playable.

LVL 3

AI AGENTS

B2B STARTUP

Worked at an AI-agents startup building automation for B2B clients - agent workflows, tool integrations, and the secret sauce that makes LLMs actually useful.

LVL 4

SIDEQUESTS

FUN

End-to-end encrypted P2P text & location sharing app, a family-business web, a trail-guide site plus smaller quests picked up along the way.
